Dear Parents, Guardians, and Students,

This is an exciting time in the lives of middle school students as they build a bridge to the first day of high school! El Cerrito Middle School is committed to educational excellence for all. Excellence can be achieved when you participate in setting goals, commit to accomplishing school work, and make time to celebrate your awesome achievements. The foundation of ECMS is a positive approach to learning that weaves “Rigor, Relevance, Relationships, Respect, Responsibility and Results” into the learning experience. In support of this, the School-Wide Achievement Goals are set for all students to accomplish this academic school year. Although the achievement of these goals is ultimately the responsibility of each student, ongoing support from parents and the school is critical. We are committed to recognizing those students who are making significant gains and are able to reach the school-wide achievement goals.

As students strive to attain the school-wide achievement goals, they are expected to maintain standards for participation in school-wide events. Maintaining these standards is required to participate in various school-wide activities, 8th grade end-of-the-year activities and the promotion ceremony. Our wish is to see all students participate in school-wide activities throughout the year. Students are encouraged to reach their highest potential.

Dear Parents, Guardians, and Students,

Did you know the seventh grade GPA is factored into the eighth grade cumulative GPA? Yes, it's true! The eighth graders must reach a cumulative grade point average (GPA) of 2.0 or higher with no D's or F's to participate in the special 8th grade end-of-the-year activities! Eighth graders have amazing year-end activities that include: promotion rehearsal, awards night, activities week, celebration night, and promotion ceremony at Centennial High School. Students can help themselves achieve when they know their grade point average (GPA) and how to calculate it, ask questions, use the planner, create and join peer study groups, ask teachers for assistance, go to the library and take advantage of the resources, or attend Academic Saturday School. It is important to start implementing these strategies as early as possible. The following information supports the standards for participation in school-wide events.
